## **Dear Jews, May you have a good and blessed year**

With Hashem's help, we have been able to arrange to have the mikvaot checked in every town and community in Israel, free of charge, by experts who have been approved by the greatest rabbis. Experience has it that there are obstacles and *p'sulei d'Oraysa* that can only be discovered by knowledgeable experts. And it can also happen that the attendant unintentionally causes the mikvah to become invalid for purification purposes.

To schedule an examination of the kashrut of a mikvah, and with help making the necessary repairs, please call one of the numbers below:

**052-681-5573**

**1-917-5622201**

This offer is only good for two weeks – first come first serve. Afterwards the expert will be busy repairing many mikvaot around the world, and will be traveling outside of Israel.

May you be blessed with a "pitka tava" - a "good note"
